> Mr. Watson,

Over the last few years I have been witness to your continuous attacks to Devra West and the non profit. This obsession has taken a turn to a display of behaviors which as a physician I can say they are very typical of the mentally ill and /or Machiavellian mind. Your distortion of past events as well as your attempts at recruiting members of the organization and students of Dr. West Teachings for your own personal gain is not only unethical and immoral but also low class and dirty.

I remember you very well when you were brought to the organization to mainly fund raise and attract new benefactors that would support our projects. You came across as a "money savvy individual whom emphasized his back ground as a corporate raider". It is interesting that today your focus still remains on money. You also sat in the classes and partook of the teachings of wisdom that were offered by Dr. West Surya Ma.

There were two interesting developments: 1- you did not do what you were supposed to do (in spite of your self proclaim expertise in the financial world). There is no evidence of any fund raising or any benefactor that was brought into the organization by your efforts.

2- As a student that you also were when you sat in the classroom during Dr. West teachings you did not make the grade!

I do not pretend to lecture you in spiritual progression but since you continue to make all kinds of claims against Dr. West and the non profit it would be important for you to know that "the truth only comes to those who have purity of heart".

Your dispute with Dr. West(Surya Ma)and the non profit was a choice that you made based on your personal ambitions (which plain and simple are rooted in greed) just like choosing not to recognize Dr. West(Surya Ma)as a spiritual teacher and that is your prerogative. But at the end of the day the fact remains that you did not contribute a single penny to the organization and have nothing to show for that you could claim was of your own making. You go off the tangent with implicit comments but forget that Dr. West is the sole agent responsible for sustaining the organization (and all its branches).Without her there is no organization. She was and still is the main source of income through the teachings and donations and gave all of her personal funds to keep the organization going. It is very clear that after she moved from Victor the "group" did not create anything sustainable and those who left including you have not contribute in anyway to fulfill the financial obligations of the organization up until this date.

Understand that we Americans work very hard to earn a living. You did not produce any results during your involvement with the organization and yet claim that you should be paid sums that fluctuate anywhere between 9k and 90k.

You have been given the opportunity to look at the facts and act accordingly in a civilized way but instead you have decided to take the lower road(left hand path) and that is your own decision.

No one in this country gets pay for doing nothing. No one in this country gets away with defamation and deliberate obstruction of the way personal businesses are conducted. Every one has a right to exist in our society even when there are differences and disagreements. Dr. West right to exist as who she is is not conditioned to any of your claims or to your idea of how she should exist. I hope you understand that very clearly!!.

Your new attacks and bogus claims posted in the web site are an example of individuals that are out for themselves without any higher purpose in life and with disregard for the greatest good of humanity. It is quite clear that your behavior does not embody the philanthropic spirit of the organization.

Your latest claims of sexual immorality on the part of Dr. West and the organization members is an indication that you have gone too far. But I will make something very clear to you. Your actions are not going to slide by. There will be legal consequences and you will have to respond to them.

Know that as you continue to obstruct the daily activities in Dr. West every day life she does not occupy herself with your false claims of bogus phone calls in the middle of the night and all your e-mails go directly to the attorneys office.

Hear me very clearly now "THE LINE IN THE SAND HAS BEEN DROWN". If what you are after is money (and /or the Victor property) it is going to take a lot of your own personal money to try and get it. Your latest figure of 90k payment (for what??) Will be a drop in the bucket compare to the expenses and legal fees you will have to pay. I have personally allocated Two million dollars for Dr. West defense and legal expenses. If you want to continue with your insanity go ahead but just know that you will have to go through me first. If you want to wrestle with me in the legal arena know that I will do everything in my power to bring you down.

Your actions will have consequences and I will personally see to it that it happens.

You will have your day in court and the opportunity to express whatever it is you want to say.

Dr. West (Surya MA) will also have her day in court and the loads upon loads of documented proof will be presented. In addition you will have to respond for your recent actions. The courts will then decide.

I don't know about you but I made my decision a long time ago. I will stand for that which is truth not only during legal proceedings but also in every aspects of my every day life and interaction with the rest of humanity.

Respectfully,

Julio E. Williams, MD
